London shoulder meeting

 Friday 17—Saturday 18 May 2024

 Location: Royal Society of Medicine, 1 Wimpole Street, London, W1G 0AE

Educational aims and objectives

The London shoulder meeting returns for its 10th successive year with a focus on trauma, arthroplasty, soft tissue and sports injuries and rehabilitation in relation to the shoulder and/or elbow. Day 1 will consist of lectures and day 2 will be workshop based. (You can attend just 1 or both days.) There will be a complimentary networking drinks reception at the end of day 1.

The meeting will include presentations, panel discussions, re-live surgery, masterclasses and hands-on sawbone workshops. The convening panel from The Shoulder Practice are joined this year by a guest convenor, Prof Mathew Wilson, and an expert invited multidisciplinary international faculty.

Based on feedback from previous meetings, we will continue to have plenty of time for panel discussions, giving the chance for all delegates to interact and get involved in the lively debates.

By the end of the meeting, participants should come away with a greater understanding of a broad range of topics on shoulder and elbow sports and soft tissue injuries, useful practical surgical tips and tricks, and up-to-date strategies for rehabilitation.

THE SHOULDER PRACTICE

Meeting convenors:

Mr Carlos Cobiella
Consultant Orthopaedic Surgeon
[University College London Hospitals](#)

Mr Henry Colaço
Consultant Orthopaedic Surgeon
