Course convenors:

Mr Ajay Malviya, Consultant Orthopaedic Surgeon, Northumbria Healthcare NHS Foundation Trust

Mr Johan Witt, Consultant Orthopaedic Surgeon, University College London Hospital NHS Foundation Trust

Educational aims and objectives

This meeting will provide core information on hip pathology in young adults, covering the current approaches to diagnosis and management. As well as providing a comprehensive review of the current state of non-operative treatment and hip joint preservation surgery, the meeting will also cover the challenges associated with total hip replacement performed in a young population and specific issues relating to reconstruction in complex deformities including developmental dysplasia, Perthes disease and slipped upper femoral epiphysis.

This meeting is aimed at Orthopaedic trainees, GP's, Physios & Sports and Exercise Medicine Trainees

We are most grateful for the support of our sponsors
